

Thursday discussion session - Miami '09:

Formal similarity between wall-crossing formulae in DT/ek-6 when building a mirror.

Maybe someone who knows abt. dimer algebras?

Soibelman: Gaiotto - Moore - Neitzke

WCF \Leftrightarrow

continuity of hyperbolic action on M^{VM} .

aligned central charges

$$Z(\gamma_1) \parallel Z(\gamma_2)$$

for non-trivial $\gamma_1, \gamma_2 \neq 0$
